History of the Department

The Georgia Department of Public Safety was created in 1937 and oversees the day-to-day operation of the Georgia State Patrol (GSP), Capitol Police and the Motor Carrier Compliance Division (MCCD). GSP troopers investigate traffic crashes and enforce traffic and criminal laws on the state's roads. Capitol Police officers prevent and detect criminal acts, and enforce traffic regulations throughout Capitol Hill. MCCD officers conduct safety inspections of commercial motor vehicles and inspect highway shipments of hazardous materials.

"Wisdom, Justice and Moderation" has been the motto of the Georgia State Patrol since its inception in March 1937. It was the motoring public who first advocated the need for the Department of Public Safety. Traffic fatalities, increased crime, and a need for a larger law enforcement agency with statewide arrest powers, led Georgia lawmakers to create the State Patrol. In the summer of 1937, the first Trooper School was held at Georgia Tech and graduated 80 Troopers. To date, the Georgia State Patrol has graduated 86 Trooper Schools.

Georgia State Patrol

The Georgia State Patrol (GSP) has 52 posts throughout the state responsible for patrolling state highways, enforcing traffic laws, and assisting other law enforcement agencies. GSP is comprised of several special operation units including: Honor Guard, Specialized Collision Reconstruction Team, Specialized Weapons and Tactics, Dive Team, Nighthawks DUI Task Force, Motorcycle Unit, Criminal Interdiction Unit, K-9 Task Force, and the Governor's Task Force/Drug Suppression.

Capitol Police

Officers with the Capitol Police Division investigate criminal incidents and traffic crashes; manage street closures for events; patrol the streets on Capitol Square and those adjacent to other state buildings; provide courtroom security for Georgia's Supreme Court and Court of Appeals; conduct security assessments and surveillance detection; and deliver personal safety training for state employees and others.

Motor Carrier Compliance

The Motor Carrier Compliance Division (MCCD) performs driver and vehicle inspections of commercial motor vehicles at roadsides, inspection stations, and at carriers' terminals. The inspections range from "full" vehicle and driver inspections, which includes mechanical components, to "driver only" inspections. These may also include inspections of vehicles transporting hazardous materials.

- **Gainesville Hangar** (patrols Northeast Georgia)
- **Perry Hangar** (patrols West Central Georgia)
- **Reidsville Hangar** (patrols Southeast Georgia)
- **Augusta Hangar** (patrols Eastern Georgia)

Aviation performs search and rescue missions utilizing FLIR (Forward Looking Infra-Red) camera systems. Many missing persons and criminals have been located using this technology. Other missions supported by GSP Aviation include: manhunts, aerial photography, aerial surveillance, natural disasters, SWAT missions, fire suppression, microwave downlink, executive transport, and static displays (high schools and colleges, civic groups, local law enforcement agencies, and air shows). This division has become the leader nationwide in its innovative use of helicopters for marijuana suppression which earned the unit the coveted Helicopter Association International Hughes Law Enforcement award.

Below are statistics for calendar year 2014:
- Conducted 1,581 flights for 2,890.4 flight hours.
- Flew 312.5 flight hours utilizing Night Vision Goggles.
- Purchased a Bell 429 helicopter. Helicopter can carry a total of 8 personnel, has a 600 lbs. external hoist for conducting rescues and a cargo hook capable of lifting an external load of 3,000 lbs.
- Conducted 252 flights at 964.9 hours for marijuana eradication.
GEORGIA DEPARTMENT OF PUBLIC SAFETY

- Conducted 294 searches at 488 flight hours for missing persons and fugitives during the day and night.
- Overall percent of finding subjects for search results was 65.85%.

OFFICE OF PROFESSIONAL STANDARDS

The Office of Professional Standards (OPS) supports the mission and core beliefs of the Department of Public Safety and is dedicated to protecting the integrity of the department through ensuring adherence to ethical standards, performance criteria, and commitment to public service. OPS performs its function by conducting a variety of investigations, including internal affairs matters, pre-employment background cases, some criminal activity and violations of speed detection device permits. The business components of the Office of Professional Standards include Internal Affairs, Background Investigations, Polygraph, Permits, and support staff. In 2014, personnel assigned to the division included 12 sworn certified peace officers, eight of whom are polygraph examiners; one Criminal Intelligence Analyst/Background coordinator, one transcriptionist, one confidential secretary, and one part time support member.

INTERNAL AFFAIRS: The Internal Affairs Unit investigates allegations of wrongdoing against members of the Department of Public Safety, including the Georgia State Patrol, Motor Carrier Compliance Division and Capitol Police. The Internal Affairs Unit also investigates complaints alleging the misuse of speed detection devices by any agency bearing the department’s certification, as well as assessing threats made against the department’s interests, and some criminal activity.

During 2014, the Department of Public Safety initiated 197 investigations. Of this number, 30 were complaint investigations conducted by field troop officers, while 167 were investigations conducted by the Internal Affairs Unit. The table below is a summary of the types and number of cases investigated during 2014:

Pre-Employment: OPS is responsible for coordinating the function of pre-employment investigations for candidates seeking to join the Department of Public Safety. During 2014, the Background Investigation Unit managed 647 pre-employment applications from Human Resources. Of those, 335 did not meet the department’s employment standards (as discovered during background investigation) and were disqualified from further consideration; 43 applicants withdrew prior to the completion of the pre-employment investigations. The pre-employment investigations performed by GSP field Lieutenants and NCOs, as well as MCCD SFCs, and assisted by OPS, resulted in 269 applicants who moved forward for further consideration for employment.

The 647 applicants wished to be considered for the following positions: 392-GSP trooper, 140-dispatcher, 57-Motor Carrier (Cadet, Weight Inspector), six-Capitol Police/safety officer, and 52-other (secretary, clerk, computer services technologist, mechanic).

Polygraph Unit: The Office of Professional Standards Polygraph Unit provides support for background, internal affairs specific issue, and criminal specific issue investigations (on special request). In 2014, nine examiners were on staff, full or part year.

During 2014, 651 polygraph pre-employment examinations were conducted for the Georgia Department of Public Safety (DPS) by the Office of Professional Standards. The Senior Polygraph Examiner conducted quality control on data collected and also included video reviews.

Two examiners completed an American Polygraph Association (APA) accredited training program during the year. These members are working as Intern Examiners toward achieving APA Full Member status. Five examiners also attended the Georgia Polygraph Association/Georgia Bureau of Investigation Seminar in Kennesaw, GA in October.

In addition to conducting polygraph tests, the examiners provided instruction and specialized training for the Georgia and Tennessee Polygraph Associations, and in National seminars for
the American Polygraph Association. Personnel also rendered support to the law enforcement community by serving on the Northwest Georgia Police Academy Advisory Board and by providing instruction at Kennesaw State University for the Criminal Justice program, the Georgia Polygraph Association at bi-monthly meetings, the Georgia Internal Affairs Investigators Association, and the Georgia Public Safety Training Center.

Several new items of equipment were put into service during the year. This has enabled simultaneous testing of up to four examinees at one time.

Plans for the Polygraph Unit for 2015 include assisting the Intern Examiners in conducting enough examinations to qualify for Member Status with the APA. Plans are also to continue rigorous quality control and to upgrade audio visual equipment in the existing suites and add outside monitoring capability to the newly added suites. Approximately, the same number of pre-employment tests are expected during 2015 due to continued processing for Trooper, Dispatcher, MCCD Cadet and other applicants.

The investigators had continued involvement in assisting to establish procedures for OPS evidence, as well as the organization of the contents of the OPS evidence room. They also investigated and/or assisted with, several criminal, internal affairs and threat assessment cases and performed computer forensic examinations.

**PERMITS UNIT:** During most of 2014, OPS administered the statewide issuance of the following permits: Speed detection device permits to law enforcement agencies; Wholesale/retail firearms licenses to individuals/businesses seeking to sell handguns less than 15 inches in length; and to individuals seeking exceptions to Georgia’s window tint law.

During 2014, the Permits Unit issued or renewed 374 speed detection device permits, 73 wholesale/retail firearms permits with attached fees, and 100 window tint permits with attached fees. July 1, 2014, was the effective date of the repeal of the statute which required the licensing of Wholesale/retail firearms licenses to individuals/businesses seeking to sell handguns less than 15 inches in length. As a result, OPS no longer performs this function. The 73 permits were issued in the first quarter of 2014.

**ADDITIONAL ACCOMPLISHMENTS:** Members of OPS continued to aid the department’s Training Office by providing instruction in GSP Basic Trooper schools, POST IT Training, and DPS in-service classes. OPS also supports the Georgia Internal Affairs Investigators Association (GIAIA) with three members who serve on the GIAIA Executive Board.

Two members of OPS completed the Force Science Certification course which provides instruction in a wide variety of crucial dynamics that impact the analysis and investigation of force encounters and they earned a new certification for investigators of force-related incidents.

**Motor Carrier Safety Assistance Program (MCSAP):** Effective July 1, 2005, the Department of Motor Vehicle Safety was reorganized per House Bill 501 and the Department of Public Safety was designated the lead MCSAP agency for the State of Georgia. For Federal Fiscal Year 2014, MCSAP funding was granted in the amount of $7,110,091.71. The mission of the MCSAP program is to improve commercial motor vehicle safety on Georgia’s highways by reducing crashes, fatalities and injuries. Each year, new goals and objectives are outlined in a Commercial Motor Vehicle Safety Plan (CVSP) and monitored throughout the plan year. During the 2014 federal fiscal year, the Motor Carrier Compliance Division (MCCD) performed 75,559 commercial motor vehicle inspections.

**New Entrant Program:** The Department of Public Safety’s Motor Carrier Compliance Division is responsible for conducting the New Entrant Program for the State of Georgia. Pursuant to federal regulations, within 18 months of a receipt of New Entrant registration, a motor carrier based in Georgia must undergo a safety audit performed by the Motor Carrier Compliance Division. The audit ensures that the motor carrier has complied with the minimum safety standards necessary to continue operating after initially receiving a U.S. D.O.T. number. For the federal fiscal year of 2014, the Department of Public Safety’s Motor Carrier Compliance Division operated on a federal grant awarded in the amount of $1,391,391.88. During the federal fiscal year, MCCD officers performed 1,697 safety audits.
Georgia Targeting Aggressive Cars And Trucks: The Department of Public Safety’s Motor Carrier Compliance Division began the Georgia Targeting Aggressive Cars and Trucks (GTACT) campaign in 2007. The GTACT program is a high-visibility traffic enforcement program. It uses communication, education and enforcement in high-risk corridors to reduce fatalities and injuries from unsafe driving behaviors by passenger vehicles and commercial motor vehicles. Originally begun in the State of Washington, Georgia was the fourth state in the nation to implement this highly successful, federally funded campaign. The enforcement blitz for each campaign corridor typically runs for 3 to 5 days per week with follow-up blitzes scheduled later. Enforcement campaigns include officers from the MCCD, Georgia State Patrol and other local law enforcement jurisdictions.

For the federal fiscal year of 2014, the Department of Public Safety’s Motor Carrier Division was awarded $636,292.64 for the operation of GTACT. The 2014 campaign includes corridors in Lowndes, Brooks, Thomas, Hart, Franklin, Monroe, Houston, Coweta and Troup counties.

Safety Data Improvement: The Department of Public Safety’s Motor Carrier Compliance Division, has a Safety Data Improvement “SADIP” grant to improve our crash data. The goal of the SADIP grant funding is to provide assistance to facilitate the collection of accurate, complete, and timely data on all large commercial truck and bus crashes that involve a fatality, injury, or a vehicle towed from the crash scene. The MCCD division collects data to report to the Federal Motor Carrier Safety Administration (FMCSA) in order to update inventories and monitor compliance of motor carrier companies, measure the condition of vehicle fleets, track the driving records of licensed operators, and record crashes involving commercial motor vehicles (CMVs) on public roadways. High-quality, timely data in each of these areas is crucial to the mission of improving the safety of CMVs. MCCD also uses the data to identify problem carriers and to plan for the best use of limited resources to improve safety. For the federal fiscal year 2014, the Department of Public Safety’s Motor Carrier Division was awarded $16,355.23.

Passenger Carrier: In an effort to increase safety outreach and enforcement on passenger carriers the Motor Carrier Compliance Division conducts statewide strike forces. Passenger carriers will be directed, on a random basis, into the one of nine inspection stations located on the main interstate systems in Georgia. As the passenger carrier would be considered enroute unless empty, the inspection would mainly consist of a Level 2 or Level 3 inspection. For the federal fiscal year 2014, the Department of Public Safety’s Motor Carrier Division was awarded $51,462.00.

EXCESS PROPERTY: In 2014, the coordinator was selected to attend a Strategic Review of DoD’s Excess Property Equipment Transfer efforts for First Responders Senior-Level Steering Panel in Washington D.C. Additionally, the Excess Property staff attended the 13th Annual Law
Enforcement Support Office National Training Conference, November 4 through 6, as part of continuing training in the management of excess property.

The 1033 Program: Under Section 1033 of the National Defense Authorization Act of 1997, the Secretary of Defense may transfer to State and Local Agencies property that is determined suitable for law enforcement activities from the Department of Defense (DOD). The Georgia 1033 Program enables Georgia Law Enforcement agencies to participate in this program and acquire DoD excess equipment to support law enforcement activities under the aforementioned Federal Guidelines 10.U.S.C. 2576a.

The program allows departments that experience budget constraint, specifically in capital outlay, the ability to obtain assets at a reduced cost. There are currently 796 agencies listed in the Excess Property database eligible to participate in 1033 Excess Property. These agencies include police departments, sheriff departments, drug task forces, marshal offices, and state law enforcement agencies.

In 2014, 278 agencies participated in the 1033 Excess Property Program. The total value of property distributed was $46,610,475.98 for CY 2014. Since the beginning of the Excess Property Program, September 1, 1991, over two million dollar's worth of used equipment has been distributed.

The Law Enforcement Support Office (LESO) conducted the Bi-annual Program Compliance Review (PCR), July 28 through August 1, 2014. LESO accompanied by Don Sherrod and Corporal Frank Mize. LESO selected 15 LEA's to visit. The finding was that Georgia was in compliance. The next PCR is schedule for late spring 2016. In addition to the federal audit, Excess Property conducted eight PCR's in Georgia and all eight were found in compliance.

Excess Property provides 1033 training the second Tuesday of each month, at the Excess Property Office. During 2014, there were 147 attendees. The program also provided Annual Certification training to 120 attendees during the month of October for each LEA that required a new or renewed annual certification for the 1033 program. Training was conducted at several locations throughout Georgia to accommodate the varying geographic locations of participating LEAs.

The 1122 Program: The authority for the 1122 Program resides with the Department of Defense. The 1122 Program offers Americans peace of mind by enabling state and units of local government access to federal sources of supply to purchase equipment in support of counter-drug, homeland security and emergency response activities. The Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 amended 10 U.S.C. 381, to expand the procurement authority under the 1122 Program beyond counter-drug activities, to include equipment for homeland security and emergency response activities.

This program affords state and local government agencies the opportunity to take advantage of discounts available to the Federal government due to its large volume purchases. The implementation of this program allows state and local government agencies to efficiently utilize appropriated funds and save millions of dollars. Some benefits of the program include discounts
from 10 to 54 percent when purchasing equipment suitable for counter-drug, homeland security, or emergency response activities. During 2014, Excess Property purchased $6,823,479.24 in equipment. The division also provided onsite 1122 training for 147 attendees.

**Budget Office:** The Budget Office is a section within the Comptroller’s Office. The Budget Administrator is responsible for managing the Department’s Budget, Facilities and Mailroom sections.

The Budget Office duties include preparing the annual operating budget, zero based budget request, and the program based budget request with guidance from the Governor’s and Legislative budget offices. The office also manages all amendments processed throughout the year, adding federal funds to the budget as needed.

Additionally, the budget office staff is responsible for monitoring expenditures to ensure they are recorded correctly and to ensure the budget will not be overspent. This includes producing monthly projections based on previous expenditures and historical trends.

**Facilities Section:** The Facilities section oversees risk management which maintains insurance policies and coordinates insurance matters related to facilities, equipment and communications. This section also is a liaison to the Georgia State Properties Commission and oversees all leases for radio communication towers and DPS/MCCD facilities/offices.

Governor’s Task Force (GTF)

The Governor's Task Force/Drug Suppression (GTF) is supervised by a task force commander from the Georgia State Patrol. GTF is comprised of six state agencies and two federal agencies. Each agency provides resources specific to their enforcement mission such as aircraft, intelligence, logistical and administrative support, equipment and personnel trained and experienced in operating in a variety of environments found within the state. The task force is funded by the Drug Enforcement Administration (DEA) Domestic Cannabis Eradication/Suppression Program (DCE/SP). These federal funds are asset forfeiture funds and are administered by the Georgia Department of Public Safety. The primary role of the task force is to eradicate domestic marijuana cultivation within the state of Georgia and to gather intelligence relating to its manufacture and cultivation. Agencies comprising the task Force are: The Georgia State Patrol, Motor Carrier Compliance Division, Department of Natural Resources - Law Enforcement Division, Department of Corrections - Probation Division, Department of Pardons and Paroles, Georgia Army National Guard Counter Drug, Drug Enforcement Administration, and the Civil Air Patrol.
The Governor’s Task Force works throughout the state as a support force for local agencies. Operational goals for the GTF include the utilization of intelligence and aggressive enforcement to locate marijuana cultivation operations and prosecute those responsible for the criminal activity. The GTF provides increased enforcement on public lands. Enforcement efforts encompass 159 counties covering approximately 59,425 square miles. GTF initiates and develops intelligence for grow operations throughout the state. The intelligence is then forwarded to local agencies. Subsequent investigations result in numerous arrests and seizures. The GTF is active also in counterdrug education efforts such as participating in the National Night Out program.

Georgia has seen an increase in the number and size of marijuana grows on its public lands in the last several years. This presents a unique safety issue to the general public who may wander into these sites while hiking in the National Forests or other public lands and encounter armed members of Drug Trafficking Organizations. Other hazards to the general public include the hazardous waste that is often generated from illegal grow operations. Georgia is home to two national forests, the Chattahoochee National Forest, located in North Georgia, which is the trail head to the Appalachian Trail and the Oconee National Forest, located in middle Georgia. In addition to these national forests, Georgia has many state administered Wildlife Management Areas located throughout the state. These hazards also present safety concerns to the hunting and fishing public as they traverse these areas. The attraction for marijuana growers to public land is their ability to grow the plants without accountability for their presence while traveling to and from the marijuana plots and the lack of risk to a capital investment from asset forfeiture. In addition, seclusion is offered in large wooded areas which can easily conceal sites while remaining close to hiking trails. This is why aviation support is so critical in the marijuana eradication program.

Each year the GSP Aviation Division and the Georgia National Guard Counter Drug unit provide aircraft, pilots, and ground support personnel to support of the Governor’s Task Force. Also, because the Task Force has a great working relationship with other state, local, and federal law enforcement agencies, ground team leader and flight observer positions are staffed by these agencies as necessary. The task Force works directly with the local city and county law enforcement agencies by assisting them in the eradication and disposal process, including securing search warrants, seizures, and arrests if necessary. During the outdoor growing season, thousands of plants are spotted, eradicated, and multiple suspects arrested because of the support provided by the Governor’s Task Force.

In 2014, GSP Aviation flew over 255 missions resulting in approximately 984 hours of flight time. This combined effort in support of the marijuana eradication program resulted in eradicating over 15,374 plants (a 52% increase over 2013), worth an estimated $32 million. In addition to the 83 grow sites located, 53 felony arrests were made and 25 firearms were seized.
Also, due to the combined efforts of the federal, state, county agencies, and the hard work and dedication of the task force, approximately $21,560 in drug related assets were also seized.

Unfortunately, not all of the marijuana grown in Georgia is located and removed or the growers arrested. However, the yearly efforts of the task force put the growers on the defensive. They don’t know when or where, but they do know that law enforcement is coming after them. They do become more innovative in their growing efforts to deter detection. Because of the concerted efforts of the combined participating agencies, the Governor’s Task Force program continues to show how important this service is and how it helps to reduce and discourage the illegal activities of the marijuana growers.

REGIONAL K-9 TASK FORCE

The K9 Training and Certification Unit is supervised by a Non-commissioned Officer from the Georgia State Patrol. This unit is comprised of three state agencies; Georgia State Patrol, Motor Carrier Compliance Division and Capital Police. The unit has two types of detection K9s; narcotics and explosives. The unit also assisted two other outside agencies with their K9 team’s training and certification.

There are nine narcotic K9 teams which were deployed 186 times. These deployments resulted in seizures of 85 kilograms of marijuana, 14 kilograms of cocaine, 119 kilograms of methamphetamine and $4,421,825 in U.S. Currency. The narcotic K9 teams also performed 9 school demonstrations.

There are seven explosive K9 teams which performed 574 sweeps and 33 calls for service. No explosive devices were located. The four new explosive K9s were donated to the State of Georgia by the Federal Government.

Unfortunately, not all of the narcotics in Georgia were seized, but the visibility and reliability of our teams helped to deter further criminal activity. The visibility of our explosive K9 teams helped to deter criminals from performing acts of terrorism against our State and helped ensure the safety of our residents.

Afterward, this plan was rewritten and road clearance duties were removed. The function of the multi-agency traffic strike teams was redesigned and they were tasked with ensuring that motorists were not stranded and that vehicles were not abandoned on the Metro Atlanta interstates. Planning began for the first WinterEX so that the state response plan for winter weather could be tested later in November of 2014.

During April, the GEMA Liaison assisted with the Southern Colonel’s Conference which was hosted by Georgia. GEMA hosted HURREX 2014 in May and the state exercised its ability to respond to a simulated Category 5 hurricane that struck the Georgia Coast. At the end of May, the GEMA Liaison and the lieutenants assigned as the Troop level SNS contacts attended the Annual SNS Conference at Callaway Gardens. WinterEX 2014 planning meetings began in June and lasted through October. On July 4th, the GEMA SOC was activated for the Peachtree Road Race in light of the terrorist attack on the Boston Marathon earlier in the year.

A program on distracted driving was presented for a group of over 900 high school students and faculty by combing efforts of Troop A Command, SCRT A, and other Troop personnel. During February a major winter storm “PAX” impacted the northern part of the State. Troopers from Troop A were deployed throughout Troop A and to Atlanta to assist with emergency operations. In May, Troop A hosted the first Iron Man Tri-Athlete competition in the south east. This international event brought over 3,000 competitors from all across the world to Walker County for a 126 mile bicycle endurance time trial. Troop A also hosted the U.S. Pro Cycle event in the Lookout Mountain region of the Troop territory. This year, Troop A was recognized by the Governor’s Office of Highway Safety for outstanding service and performance in traffic safety in 2014. During 2014, Post 38 and Post 3 covered Post 29’s territory.

During 2014, The Troop A Communications Center logged and dispatched a total of 110,901 calls. Of the calls logged, there were a total of 13,367 motor vehicle crash calls, 77,566 traffic stops/commercial vehicle inspections and 3,256 motorist assists. Also logged and dispatched were 6,033 calls for the Department of Natural Resources.

Troop C helped State of Georgia Leaders in the development of strategic plans for future response to winter weather preparation and responses. Troop C Mobile Field Force Units and Troopers assisted local law enforcement and responded to protests in the Metro Atlanta Area due to civil unrest in other areas of the country, during the Ferguson, MO grand jury verdict and the New York City, NY Grand Jury verdict.

The Georgia State Patrol Nighthawks DUI Task Force patrols the five Metro-Atlanta counties of Cobb, Clayton, Gwinnett, DeKalb, and Fulton concentrates on the apprehension of DUI offenders during the peak hours when statistics have shown DUI related incidents occur.

**Counter-Terrorist Task Force:** The Criminal Interdiction Unit continues to be a core component of the state’s Counter-Terrorist Task Force. This assignment has led to an increase in training requirements and additional responsibilities.

During 2014, the members of Criminal Interdiction Unit received advanced training on weapons, and received training in other counter-terrorism related issues. Additionally, there are two troopers from each Troop area that are also assigned to the Counter-Terrorist Task Force and fall under partial Criminal Interdiction Unit control during any designated operations.
**SPECIALIZED WEAPONS AND TACTICS (SWAT) AND DIVE TEAMS**

The State of Georgia SWAT Team (SWAT) provides a highly trained and skilled tactical team as a resource for all law enforcement agencies in the State of Georgia in resolving critical incidents.

SWAT was requested to assist with 31 critical incidents. Some of the incidents were resolved prior to our team’s arrival, by the requesting agency, others lasted hours. The majority of our requests were to assist with a barricaded gunman or a hostage situation. Others ranged from an active shooter, woodland searches, VIP security details, warrant services for other government agencies, as well as special requests for security details. Each incident was resolved without any serious harm to a hostage, team member or suspect.

**Dive Team:** The State of Georgia Dive Team was requested 23 times during 2014. The majority of requests were to recover a drowning victim. Other requests were for evidence recovery, mostly weapons used in violent crimes. The mission of the Dive Team is to assist other agencies with critical incidents, recoveries or any other special need which requires working in water.

**SPECIALIZED COLLISION RECONSTRUCTION TEAM (SCRT)**

SCRT originally covered five regions (Teams 1-5) and reported to SCRT Command. In April 2012, due to budget restraints (Zero Based Budgeting) and the fact that SCRT is an expensive unit to man and equip, work began to re-structure SCRT under the field division and place it under the GSP Commanding Officer in an effort to maintain SCRT as an asset. To do so required that every SCRT fall under the command of their respective Troop Commands (A-I). This was done by utilizing the existing SCRT personnel based on where they lived to construct nine smaller troop SCRTs. This was done in phases and the first new team, SCRT-C, was introduced on January 1, 2013, in Atlanta. The other troop teams began work in their respective troops on April 1, 2013. On top of the cost saving benefits, other benefits included an even distribution of SCRT manpower among the troops, better response times, better access to SCRT personnel and their assigned SCRT duties. SCRT personnel added personnel in each troop to assist with other enforcement, patrol, disaster relief and civil disturbance details.
Motor Carrier Compliance Division

The primary focus of Motor Carrier Compliance Division is the enhancement of highway safety in regards to commercial motor vehicles. MCCD officers perform in-depth complex safety inspections of the commercial vehicle, its operator, and the load to ensure that they pose no identifiable risk to the safety of the motoring public.

SIZE AND WEIGHT ENFORCEMENT

Enforcement of laws and regulations relating to size and weight of commercial motor vehicles and loads are provided for in Article 2 of Chapter 6 of title 32 of the Official Code of Georgia Annotated. The operation of 19 permanent weigh/inspection stations provides enforcement coverage on the interstates and related by-pass routes. The utilization of 208 officers allows for monitoring and enforcement efforts on other roadways within the state.

Commercial Motor Vehicle Safety Program: The Commercial Vehicle Safety Program is outlined in the Commercial Vehicle Safety Plan (CVSP), our annual Motor Carrier Safety Assistance Program (MCSAP) grant statement to the FMCSA. The CVSP contains five required program areas: Driver/Vehicle Inspections, Traffic Enforcement, Compliance Reviews, Public Information and Education, and Data Collection.

Regulation Compliance Program

The Regulation Compliance Programs consist of one officer and five civilian employees who are responsible for the issuance of certificates and permits for the Passenger Carrier, Household Goods and Transportation Referral Services and Non-Consensual Towing Programs for intrastate carriers in Georgia. In addition to the primary responsibilities of the program managers, educational outreach classes and training sessions are regularly performed.

Compliance Review Program (Investigation and Safety Analysis): This program is one of the five elements of the MCSAP plan. The Compliance Review unit consists of six compliance review officers that are cross trained to conduct Safety Audits and conduct both interstate and intrastate safety compliance reviews. These on-site examinations of motor carrier operations include reviewing driver’s hours of service, maintenance and inspection of vehicles, driver qualification files, controlled substance and alcohol testing, CDL requirements, financial responsibility, accidents, hazardous materials, and other safety and transportation records. This review is intended to provide information to evaluate the safety performance and regulatory compliance of a company’s operation. This unit is also responsible for the preparation of civil penalty cases for prosecution of serious safety violations found during these reviews. All compliance review officers are trained in Compliance, Safety, and Accountability (CSA). One officer has been selected as an Investigation and Safety Analysis (formerly known as Compliance Review) instructor and teaches this course nationwide.
New Entrant Program: The New Entrant program is responsible for performing safety audits on new interstate motor carriers based in Georgia within 12 months, (four months for passenger carriers) of receipt of new entrant registration. The Safety Audit Unit is comprised of 12 officers who are also cross-trained to conduct compliance reviews and CSA investigations.

School Bus Safety: The School Bus Safety Unit consists of 11 MCSAP certified officers who are responsible for conducting safety inspections on approximately 16,000 public school buses statewide. The unit also conducts annual inspections on over 600 Head Start buses. In addition to the primary responsibility of bus inspections, other responsibilities include conducting safety meetings and performing commercial motor vehicle inspections.

Public Information and Education Program: This program involves extensive educational outreach by the Motor Carrier Compliance Division to the general public, drivers, carriers, industry groups, law enforcement agencies and the judiciary. MCCD distributes over 62 separate informational brochures and handouts on commercial vehicle safety topics. This information is distributed by the officers at the weigh stations to the general public. Our regional officers work closely with The Georgia Motor Trucking Association, the general public and are also responsible for arranging and attending functions that focus on the commercial motor vehicle industry and the general public.
