706-569-3127 (Fax)	June 23, 2011	1300-1700

All Intoxilyzer 5000 Refresher classes are held on Thursday, unless otherwise indicated. For Refresher classes at GPSTC, please register by e-mail at intox@gsp.net. Please include the officer(s) name, social security number, Intoxilyzer permit number and expiration date. E-mail registration is the preferred method for Refresher classes at GPSTC, and this is the only registration that will receive confirmation. Please do not fax Student Authorization Forms to the GPSTC for these classes. These requests will not be confirmed.

To register for Intoxilyzer 5000 Refresher classes held at the Regional Law Enforcement Academies, please contact the respective academy directly. The phone numbers and fax numbers are included above for your convenience.

The suggested time frame for attending a Refresher class is within six months of the expiration date listed on the Operator's Permit. An Operator may also attend an Intoxilyzer 5000 Refresher class within six months after their permit has expired. If a permit has been expired for more than six months, the officer will have to attend the 16 hour Basic Intoxilyzer 5000 class. (Exception: Operators returning from active military duty with a permit that has been expired for more than six months should contact the GBI at 404-270-8145.) Operators are not permitted to conduct a test if their permit is expired.

For information on registering officers for the 16 hour Basic Intoxilyzer Operator's Course at GPSTC, access the GBI website at <http://www.gbi.georgia.gov>, click on the link for Division of Forensic Sciences (State Crime Laboratory), then click the quick link on the right for Training.

Please DO NOT fax or send Intoxilyzer Basic or Refresher registration forms to the Registration Office at the GPSTC or the Georgia State Patrol Training office. They are not involved in the registration process for these classes.

If you have any questions, please contact Sgt. Darrell Dunn at 478-993-6798.
